4: Roadmap

Community Owned & Driven

Meta Market Blocks has a simple goal, to provide free service for everyone. Meta Blocks founder burned 60% of the tokens supply and renounced ownership of the contract. Giving the community complete control of Meta Blocks token. We are entirely community owned. Fair distribution, no tax, no rug pulls, no honeypots, no bs.

Meta Market Blocks

Sharing

Meta Market Blocks is an open sharing resource for your NFTs and products you're looking to show the world, via our Twitter & Telegram. Giving you an easy way to share NFTs and everyday items worldwide. With Meta Market Blocks, you will be able to link your products free from network fees and get rewarded in our native token Meta Blocks with any post you make.

Meta Market Blocks

Mission

Meta Market Blocks has nothing but the community in mind and wants its community to succeed. Meta Market Blocks plans to be 100% fee free in NFTs & ecommerce. Helping the community grow is our number one mission.
